## **DETAILED ACTION**

### ***Response to Amendment***

1. The amendments made to Claims 1, 10, 15, and 19 have been considered.
2. No claims have been cancelled, and no new claims have been added.
3. As presented previously claims 3-8 and 20-22 are still in condition for allowance.
4. Claims 1-22 are now in condition for allowance.

### ***Allowable Subject Matter***

5. Claims 1-22 are allowed.
6. The following is an examiner's statement of reasons for allowance: The independent Claims 1, 10, 15, and 19 embody the same teachings, with their differences consisting of methods and systems. Claim 1 will therefore be described in detail, with all descriptions applying equally to Claims 10, 15, and 19.
7. The allowability of Claim 1 will be described in detail as follows: Originally, Claim 1 was rejected due to its unoriginal qualities of generating a first assignment cost value, without specifying what exactly the first assignment cost value embodied. In the amended claim however, the first assignment cost value is denoted as a "measure of bandwidth", which is a substantially specific item. Therefore, the cost value must have a measure of bandwidth. Furthermore, it is this "measure of bandwidth" that will be used to reassign the virtual addresses to a second set of physical addresses (as noted later in Claim 1), which is a novel notion. Therefore, the determining at least one characteristic of a memory request. This new specific limitation causes the invention to be original, and no prior art (or combination thereof) reads on the claim due to its specificity.

8. All claims dependent on independent claims 1, 10, 15, and 19 are in condition for allowance.
9. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
